**ENY TINIES** The tiniest, most vulnerable kittens require gentle and frequent care.

- Eyes closed, ears folded, no umbilical cord
- Eyes open at 8-12 days
- Eyes completely open, blue color
- Wobbly on their feet

- Pink in color, umbilical cord attached, eyes closed 7 degrees; can’t regulate temp.

**ENY WEANIES** As kittens age, you’ll help them reach important developmental milestones.

- Canines emerging
- Walking confidently & exploring their surroundings
- Premolars emerging
- Weaning slowly onto wet kitten food

- Incisors emerging, ears unfolded
- Discovering litterbox

**KIDS CLUB** These social, independent, and coordinated kittens are almost ready for adoption.

- All milk (deciduous) teeth have emerged
- Transitioning into adult eye color
- Once 2 pounds, kittens can be spayed/neutered and placed in their forever home!
